Remarks of the Supervisor: Parthiv has been a sincere and hardworking student throughout the project duration. The OrchestrAI system he has built is technically impressive — the multi-agent orchestration, ML-based anomaly detection, and LLM-powered root cause analysis are well thought out and implemented effectively. He was proactive in our meetings, receptive to feedback, and demonstrated a strong grasp of both the research and engineering dimensions of the work. The final report is comprehensive and well-written, and the seminar presentation was clear and confident. I am pleased to recommend him for the grade of Excellent.
